**PR 21: Dynamic-Air obtains FAA recertification of quality system**

Dynamic-Air Engineering, Inc. has been certified to FAA standards for design, manufacture, and repair and overhaul for many years. "In order to stay current and continue to service our customer Dynamic-Air Engineering continuously updates our quality system and related processes and procedures" stated J.D. Anderson, General Manager.

Dynamic-Air Engineering is pleased to announce that it received a letter of approval from the FAA on January 19<sup>th</sup>, 2011 certifying that Dynamic-Air "meets the requirements of Title 14, Code of Federal Regulations, part 21, subpart K."

This continues our long standing tradition of meeting customers needs by staying current as regulations are strengthened and revised.
